Solar Carport

Steel Structure

High power Generation

High reliability

Wind resistance

Solar Carport

We provide the design, customized manufacture, logistics, and one-stop purchasing of solar products, meet requirements of different clients.

HDG Steel Structure

The solar carport was supported by heavy duty Q355B steel as main pole, with Hot Deep Galvanized surface treatment, in sure the whole system anti-rust and stable in even extreme weather.

Water-proof Groove

The carport is equipped with M-type grooves. water on the surface of the solar panels will collect in the M-groove and drains along the groove. keeping the vehicle dry even on rainy days.

Solar Carport

We provide the design, customized manufacture, logistics, and one-stop purchasing of solar products, to meet requirements of different clients.

Custom Design Manufacture

We offers custom design services, whether for single-bay or double-bay carports, we can make specially design and manufactured according to Customers requirements, creating your unique Solar Carport,

Datasheet

ITEM	VALUE
Products Name _____	Solar Carport
Brand _____	AMPG
Original _____	China
Life Span _____	>25 years
Wind Resistance _____	30M/S
Snow Load _____	1.6KN/SQM
Warranty _____	3 years
Feature _____	Water-proof
Tilt Angle of Solar Panel _____	5°
Surface treatment _____	Hot Deep Galvanize
Quantity of Solar Panels _____	Customized
